How do we become who we are? How do we learn to inhabit the earth well?

Some wisdom traditions teach there's a necessary journey to be made, a pilgrimage without and within. We must leave a familiar way of seeing and being if we are truly to know ourselves and come to be at home in the world.

The wisdom of Australian First Nations peoples seems, at first glance, different. Rather than leaving home, we are to dwell on country. Country makes us who we are and the land itself is sanctifying.

Are these incompatible accounts of human becoming? Or are there connections to be discerned?

Sarah Bachelard will open the conversation "*Sacred Geography: Pilgrimage, Place, Encounter*" around themes of place and displacement, pilgrimage and belonging, wondering how we come to be at home with ourselves and in our world.

Sarah is a theologian, retreat leader and a teacher in the World Community for Christian Meditation.

You are welcome to contribute questions and ideas for the conversation via the moderator (via email in advance and at the event).
